Recommendation letter:

Nørresundby 05'th May 2009

Bates Cargo-Pak has been working for 10 years in Russia, and in that period used several different interpreters for business meeting all over the country - We were recently introduced to Anna Sarazhina - and she proved, in every single way, to be the most professional interpreter we have worked with.

Her natural appearance and friendliness, in combination with her large English skills made it a pleasure working with her. She was very well prepared and understood the importance of being our representative and communication channel.

I can only give my strongest recommendation to any company in using Anna Sarazhina.

Best Regards
